

DOUBLE E HOBBY Volvo Fully metal made hauler E117 Scale 1:16

- Volvo Officially licensed
 - Scale 1:16
 - Fully proportional control unit
 - Six-wheel driving system
 - Pendular suspension system
 - Impressive Off-Road Performance
 - Smooth and powerful
 - High-Power Hydraulic System
 - Professional Remote Control
- Product name: Fully metal made hauler
 Product Serial Number: E117-003
 Age: 14+
 Scale: 1:16
 Radio control distance: 50m
 Tipping weight: 30Kg
- Size of the excavator: 71.4x20.7x25.0cm
 Package dimensions: 89x40.5x38.5cm
 Vehicle battery: 7.4V/6000mAh lithium battery
 Radio control battery: AA1.5V *2 (not included)

Opening hood

Detailed interior

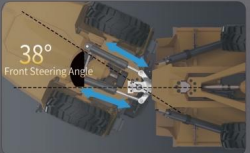

Opening doors

Opening tail gate system

Metal shocks

38° Front Steering Angle

Remote control liquid pressure rod promotes the front of the car to turn left and right

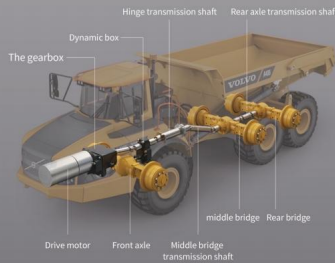

Angle reversed 90°

The chassis hinge structure, the front of the car is flexibly reversed

The middle axle and the rear axle are connected by a rocker structure to make the wheels move steadily

High-intensity alloy shock shelter, strong structure

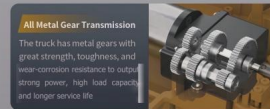

Life-Real Sounds Effect

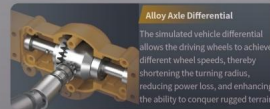

Pre-installed sound kit

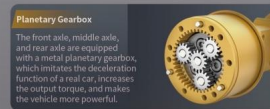

High-Performance External Carbon Brush Motor
 Equipped with 540 external carbon brush motor with features like high torque, strong anti-interference, replaceable carbon brush, larger load capacity, longer remote control distance, and lasting playing time

All Metal Gear Transmission
 The truck has metal gears with great strength, toughness, and wear-corrosion resistance to output strong power, high load capacity, and longer service life.

Alloy Axle Differential
 The simulated vehicle differential allows the driving wheels to achieve different wheel speeds, thereby shortening the turning radius, reducing power loss, and enhancing the ability to conquer rugged terrain.

Planetary Gearbox
 The front axle, middle axle, and rear axle are equipped with a metal planetary gearbox, which imitates the deceleration function of a real car, increases the output torque, and makes the vehicle more powerful.

Upgrade Large-Capacity Lithium Battery
 The body is equipped with a 7.4V/6000mAh 25c large-capacity lithium battery, with strong power and long-lasting battery life, greatly enhancing the power system.

Amazing Lifting Weight and Carrying Capacity

DOUBLE E HOBBY

VOLVO
 Official Licensed Product

Working lights

Full proportional precision control

- Precisely control the speed of the whole machine, steering angle and lifting height.
- Real car oil pressure control experience.
- More granular play movement.
